

Messages from the road for a safer and smarter future

Final event – Panel discussion topics

by **Safe** and green **Sensor Technologies** for self-explaining and forgiving **Road Interactive aPplications** –
SAFE STRIP

www.safestrip.eu

Monday, July 20, 2020

This project has received funding from the European Union's Horizon 2020 Research and Innovation Programme under grant agreement no 723211.

TOPICS

Time (GMT+3)	Topic
14:45 – 15:05	System Standardisation & Homologation
	<p><i>Necessary actions both on behalf of the Developers, as well as from the Authorities to achieve maximum compatibility, safety, repeatability and quality of the system.</i></p> <ul style="list-style-type: none"> - <i>How can it be homologated for actual operation in roads and which type of roads (i.e. highway versus urban)?</i>
15:05 – 15:25	Integration & Interoperability
	<p><i>Interoperability issues/ aspects with other C-ITS and operation under different mobile networks and platforms.</i></p> <ul style="list-style-type: none"> - <i>Does 5G eliminate the need for 5G (C-ITS) on board units or enhance it?</i> - <i>How can SAFE STRIP integrate its operation within a Traffic Management Centre?</i>
15:25 – 15:45	Exploitation
	<p><i>Entanglements that may occur during the transition from existing, well-established markets to alternatives which may include different stakeholders.</i></p> <ul style="list-style-type: none"> - <i>How can SAFE STRIP achieve maximum market penetration and how important is that for C-ITS in general?</i> - <i>How can it eventually replace VMSeS, toll stations, etc.?</i>
